HEALTHY

Our basic principle is to produce in accordance with national and international standards and regulations for "Community Health" in the constantly evolving and changing world.

QUALIFIED

Performing quality control until the end of production for the products which produced according to its goals will constantly encourage producing higher quality.

COORDINATED

We think that being coordinated makes a great contribution to business life on the way to the goal and success since it will increase the efficiency of the works.

ENVIRONMENTAL and SUSTAINABLE

In our world, where millions of tons of waste is mixed every year, it is our duty to produce "Greener, environmental and sustainable" packaging products with a respectful and environmentally friendly approach and to leave a more livable world for next generations.

ABOUT US

Fooddeliveryboxes develops and offers successful solutions to its customers in universal quality and standards for food and non-food markets, especially for paper containers, cardboard containers and various packaging.

In order for the packaging and packaging solutions to be effective, we design and manufacture products of the highest quality and functional features with our expert staff, taking into account all processes from shipment to storage conditions, shelf life and usage in order to understand the customer, to meet the needs and to offer the right product.

Our products are manufactured in accordance with all hygiene and safety regulations according to food packaging production and are certified according to the British Retail Consortium (BRC).

Our main fields of activity are; chain restaurants, fast food outlets that use packaging products at domestic and

international, and the businesses and companies that produce food and non-food products.

Our main product groups are; paper straws, hamburger boxes, fried potato boxes, takeaway boxes, pans, noodle boxes, doner boxes, salad bowls, paper plates, cardboard buckets, sushi boxes, ice cream containers, kraft packages, souffle boxes, ovenable and microwaveable cardboard packaging, catering sets , disposable packaging products.

Transparency, flexibility, social responsibility, loyalty, and business ethics are the primary values of our corporate culture. We contribute to environmental sustainability by taking measures on many issues in order to fulfill our responsibility towards the next generations and to leave them a livable world.

We are proud to share our experience in the packaging industry with our valued customers and to provide high quality products.

We look forward to working with you.

General Packaging

INNOVATION AND QUALITY:

Innovation:

We produce easy-to-use packages and develop effective solutions by developing different ideas and using the latest technologies in packaging applications.

Innovations are crucial for companies for survival, economic growth and success.

Quality:

In line with the Quality Management philosophy we have adopted, it is our primary goal to produce high quality products in accordance with the purpose of the product in our company, where we have culturalised the mentality of Food Safety Management System. Accordingly, we provide traceability from raw material to finished product. Our policy is to comply with the requirements of the quality management system in order to be a leader in the industry, to continuously improve efficiency and to ensure sustainability. Our responsibility is to carry out our activities in a sensitive manner to legal conditions, moral values, human rights, our stakeholders and our entire environment. We are committed to contributing to increasing the environmental awareness of our employees and society by collaborating with everyone we work in the chain.
